

We Care For You So You Can Care For Them

Proud to be a **software partner** to
home and community-based care
providers **since 1984**

Why work like this...

- **Duplicate entry** of the same visit/encounter data in 2, 3, or 4 places
- **Lost reimbursement** due to exceeding pre-approved service limits
- **Separate repetitive processes** for billing, payroll, accounting, Consumer tracking
- **Complex spreadsheets and ledgers** that have grown out of control
- **Manual calculation of CMS-1500**, manual typing of claims into NCECS
- **Manual posting of payments** to accounting systems
- **No reporting capability**, scrambling to calculate a manual best-guess for new requirements like CAP MR/DD cost report

Agency Report Card

| SUBJECT | GRADE |
|---|-----------|
| Compassionate caregiving | A+ |
| Commitment to service | A+ |
| Professional Integrity | A+ |
| Efficient processes | D+ |
| Billing accuracy | C+ |
| Effective tracking/reporting | C- |
| Preservation of staff sanity | D |
| Willingness to implement technology to improve productivity & simplify workflow | ?? |

when with software & support from Horizon Healthware

Horizon is proud to work closely with NC providers of services in the field of Mental Health / Substance Abuse / Developmental Disabilities

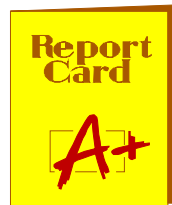

Including:

- Community Support
- Targeted Case Management
- Brain Injury Support
- CAP MR/DD
- Supportive Employment
- Community Intervention
- Vocation Rehabilitation
- Etc...

Our PROMISE™ system automates the entire process of admitting Consumers, tracking service authorizations, collecting staff time, generating CMS-1500 claims, posting payments, counting visits and units of service, speeding collections, and gaining control over the overwhelming flow of paper and information through your agency.

Let Horizon help your agency succeed – our experienced team is ready to assist you!

- Easy-to-use software
- Includes the “business rules” for providing MH/SA/DD services
- Affordable solutions to fit any budget
- Flexible technology – your server or ours, scalable for agencies of any size

you can work like this...

- **Enter data once** – Streamlined entry of staff and Consumer activity to easily generate billing, payroll, visit stats
- **Track Authorizations** to prevent over-utilization & make denied claims a thing of the past
- **Create & electronically transmit perfect claims** with seamless CMS-1500 process: Visit data → claim → EDS and most LMEs
- **Verify Medicaid eligibility** for all Consumers at one time by computer, no phone calls
- **Receive Medicaid remittance advice electronically** then click a button to post payments to your Consumer accounts
- **Take control of your information with over 80 standard reports:**
 - CAP Cost Report
 - Accounts Receivable
 - Staff productivity
 - Profit/loss analysis
 - many more, plus “create your own”
- **Maintain contact information** & easily print mailing labels or phone lists for staff, Consumers, family members, advisory groups, community resources, etc.

Software partner to home and community-based care providers **for nearly 25 years**, Horizon Healthware is a **Raleigh-based** company known for delivering

- **quality software** and
- **outstanding service** at a
- **fair price**

Behavioral Health providers, desperate for help with the overwhelming burden of billing and recordkeeping, came looking for us – and now that we've found one other, Horizon is fully committed to serving the MH/SA/DD provider community with affordable technology solutions.
